

Hand Disorders

Our Team

The Charles E. Seay, Jr. Center for Excellence in Hand directed by Scott Oishi, M.D., FACS, is dedicated to caring for the whole child, both physically and emotionally. The world-renowned team offers specialized care to children with hand and upper limb anomalies, as well as children who need complex reconstruction following trauma.

Conditions We Treat

- Arthrogryposis
- Camptodactyly
- Cleft Hand
- Polydactyly
- Hypoplastic Thumb
- Pollicization
- Radial Polydactyly
- Radial and Ulnar Longitudinal Deficiency
- Elbow Disorders
- Elbow, Wrist and Hand Sports Injuries
- Madelung Deformity
- Symbrachydactyly
- Syndactyly
- Thumb in Palm
- Trauma
- Trigger Thumb

Services for Our Hand Patients

- Digital X-ray and advanced imaging
- Occupational & Physical Therapy
- Orthotics & Prosthetics
- Lab Services
- Psychology
- Child Life Specialists
- Therapeutic Recreation

Research and Training

Scottish Rite Hospital was the first pediatric hospital in the United States to employ full-time hand surgeons. Through quality patient care, education and research, the hospital's hand experts have paved the way in treating patients with the common to the complex of upper limb conditions.

The A.C. and Eleanor M. Garison Fellowship in Hand and Upper Limb Treatment was established in 2013 to implement specialized training for the next generation of hand surgeons. As one of only five pediatric orthopedic hospitals in the country to offer a program of this caliber, the expertise of our hand surgeons extends to those nationally and internationally.

The Center for Excellence in Hand conducts ongoing research to better understand the complexities of each condition. Through the different studies, our team is able to analyze a hand condition as a whole and determine the most effective form of treatment.

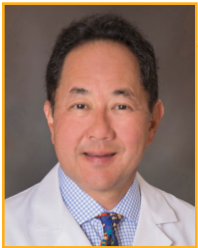

Hand Disorders

Therapy Services

We have a team of occupational and physical therapists who are dedicated to caring for our patients with hand conditions and injuries. Working alongside the doctors, the therapists will evaluate a patient's overall movement and function through certain exercises. The goal is independence and getting the child or adolescent back to what they want/need to do for daily living. If there is a need for ongoing therapy, patients can be seen at either the Dallas or Frisco campus.

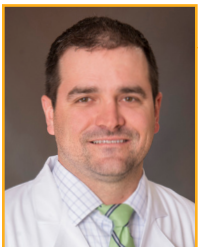

Hand Experts

Scott Oishi, M.D., FACS

- Board certification in plastic surgery with certificate of added qualifications in surgery of the hand
- Training: medical degree from Tufts University School of Medicine; general surgery residency at the University of Texas Health Science Center at San Antonio; residency in plastic surgery at the University of Kentucky Chandler Medical Center; hand microvascular fellowship at UT Southwestern Medical Center
- Appointments available at the Dallas Campus

Chris Stutz, M.D.

- Board certification in orthopedic surgery with certificate of added qualifications in surgery of the hand
- Training: medical degree from the University of Texas Health Science Center at Houston Medical Center; orthopedics and rehabilitation residency at Vanderbilt University Medical Center; hand and microvascular surgery fellowship at Washington University; congenital hand surgery fellowship at Texas Scottish Rite Hospital for Children
- Appointments available at the Dallas and Frisco Campuses

Our Locations

Dallas Campus

Texas Scottish Rite Hospital for Children

2222 Welborn Street • Dallas, Texas 75219

Main: 214-559-5000 • Orthopedics: 214-559-7559

Frisco Campus

Scottish Rite for Children

Orthopedic & Sports Medicine Center

5700 Dallas Parkway • Frisco, Texas 75034

Main: 469-515-7222 • Orthopedics: 469-515-7250

Texas Scottish Rite Hospital for Children is one of the nation's leading pediatric orthopedic centers. The hospital treats a wide range of orthopedic conditions, including sports injuries and fractures, as well as certain arthritic, neurological and learning disorders, such as dyslexia. Patients receive treatment regardless of the family's ability to pay. For more information about services available at our Dallas or Frisco campus, volunteering or donating, visit scottishritehospital.org.
